

## Notes from the President

---

Greetings to all members from your new President. It is with great honor and privilege that I accept the position as humble leader of the Lincoln Heating and Air Conditioning Association. I look forward to fulfilling my duties to the highest level possible.

I would like to write a brief introduction of myself for those who might not know me that well. I am employed at C.S. Guenzel Co, where I have been for eleven years. Our main work in the HVAC field is commercial kitchen exhaust. We also do a lot of work with stainless steel for commercial and residential kitchen applications. We also are capable of light manufacturing of sheet metal parts. My job in the company includes everything from bidding, CNC programming, design, fabrication, welding and field work.

I appreciate the great turnouts we've had at the monthly meetings. I think it is really important to our trade. Having the contractors, the suppliers and the city inspectors get together is invaluable. If anyone has any ideas for speakers or any questions or concerns, please don't hesitate to contact me. Also, if you have an issue that you would like to be addressed in our meetings, give me a call or e-mail me, that way I can make sure it gets included in the agenda.

Thanks again for all of your support. And thanks to Doug Kreifles for a wonderful job as past President.
